consultants.aero

SPECIAL PROJECTS & MANAGEMENT

▪ ***SPECIAL PROJECTS***

- Management of unusual aviation related projects which require a combination of excellent overall aviation expertise as well as those tasks described under management, audit & consultancy below. For instance :
 - Purchase 2 ex-military DC-8's through a French State call for tender, elaborate and implement an asbestos removal program and organize all required logistics to return the 2 aircraft to service after a long storage period at an airport with no facility.
 - Information System IT audit of the 4 main facilities of a major MRO in Europe.
 - French State counsel for the elaboration of a long term call for tender for the full maintenance support of a 25 aircraft fleet.
- Off-site management (distant management of team of consultants working on-site).

▪ ***MANAGEMENT***

- Manage team of consultants (provide instructions and methodology to the team, consistently with client's standards and requirements).
- Sumarize and report information to client.
- Track project leadtime.
- Track project costs.

▪ ***AUDIT***

- Identify discrepancies, risks and potential issues, define corrective actions and monitor implementation.

▪ ***CONSULTANCY***

- Evaluate solutions and issue recommendations to client.

AIRLINES MAINTENANCE & ENGINEERING

- ***TRANSFER & BRIDGING PROGRAM***
 - Elaboration of transfer program with application to authorities approval (MSG2 to MSG3 MPD).
 - Bridging program between operators maintenance program and MPD.

- ***AIRCRAFT RECORDS UPDATE AND ORGANIZATION***
 - Update aircraft statuses (AD's, components, airframe maintenance program, modifications & STC's, repairs...).
 - Technical records organization in accordance with statuses, prepare delivery bibles, etc.

- ***MAINTENANCE PROGRAM***
 - Elaboration and optimization of customized maintenance program.

- ***MAINTENANCE TRACKING SOFTWARE UPLOAD***
 - Upload historical aircraft data into maintenance tracking software database (for instance, Amasis).

- ***ELABORATION OF WORKPACK***
 - Elaboration of heavy maintenance check work packages in accordance with current aircraft statuses.

AERONAUTICAL REGULATIONS AIRCRAFT AIRWORTHINESS

▪ ***AIRCRAFT RECORDS REVIEW & UPDATE***

- Technical records audit.
- Update aircraft statuses (AD's, components, airframe maintenance program, modifications & STC's, repairs...).
- Documents organization in accordance with statuses.
